

Dublin based Tax Practice required for acquisition

A well-established Dublin based firm with strong growth plans is looking to acquire a small Dublin based tax practice to complement existing offerings. Ideally the tax practice will be consultancy centric as opposed to compliance driven. We are particularly interested in acquiring a practice with a solid client base in respect of VAT and Capital Taxes.

We are happy to consider a number of acquisition scenarios which include, but are not restricted to – straightforward acquisition and owner exit along with owner transition agreements.
