## About The Chartered Tax Adviser (CTA) Qualification

The Chartered Tax Adviser (CTA) qualification is Ireland's leading taxation qualification and is held by the majority of Ireland's most experienced tax advisers, many of whom are involved in delivering the Chartered Tax Adviser (CTA) programme. The qualification was established over 40 years ago and the many Chartered Tax Advisers (CTA) working throughout the public and private sectors are testament to the prestige of the qualification and the calibre of its graduates.

Students gain a deep insight into how our tax laws are formed and how these laws are applied to key commercial transactions. Students acquire the professional skills required of an outstanding tax adviser. They learn about the relevant corporate, legal and accounting issues which underpin, broaden and enhance the skill set of a CTA.

The Chartered Tax Adviser (CTA) qualification provides students with the skills necessary to provide technically correct and commercially sound tax advice.

Tax is an ever-changing and ever-increasing body of legislation, precedents and practice. Our students must achieve the vital competency of "learning to learn" so Chartered Tax Advisers (CTA) can keep abreast of relevant developments throughout their career.

The Chartered Tax Adviser (CTA) programme is a cumulative and fully integrated curriculum. Each Part builds on the knowledge and skills acquired by students at previous Parts.

#### What Will I Study?

The Chartered Tax Adviser (CTA) programme covers all tax heads, building from fundamentals to the advanced level.

#### **Fundamentals - Part 1**

Students cover the key principles for the taxation of individuals while gaining the competence to use tax legislation and case law and translating the principles for taxpayers. Students acquire the skills and knowledge to undertake financial reporting and disclosures for tax figures and obtain knowledge of the Irish and EU legal systems and the fundamental legal concepts required to provide comprehensive tax advice.

#### **Application & Interaction - Part 2**

Through interpreting relevant income, capital and indirect tax provisions, and applying the findings to the circumstances of individuals and companies, students learn to advise individual and corporate taxpayers on their tax issues. Students obtain a thorough understanding of Revenue powers, Revenue compliance interventions and Revenue audits. Students learn how to clearly set out tax advice and to project manage the effective implementation of the advice provided including knowing when input is required from other professionals. Related legal and accounting issues are also covered.

#### **Advanced - Part 3**

Students acquire the knowledge and skills to deal comprehensively with complex multi-tax scenarios which they will encounter as tax professionals. Students will gain an understanding of international and domestic tax policy which will facilitate students ability to understand tax legislation, whether they are working in practice, the public sector or the corporate sector. Students on completion of Part 3 understand the importance of providing efficient tax advice and of offering alternatives which reflect the commercial reality of the taxpayer. Students obtain a thorough understanding of general anti-avoidance legislation and mandatory reporting requirements. Students consider the ethical issues that qualified Chartered Tax Advisers (CTA) may face when giving tax advice.

#### **Professional Skills**

Chartered Tax Advisers (CTA) need to have the skills to gather facts, carry out focused research, identify relevant legal and accounting issues and formulate advice to a taxpayer. They need to communicate complex tax matters as professional tax advice and project-manage the effective implementation of the advice provided to include any compliance related issues. Other essential skills that are developed during the CTA qualification include:

- Creative thinking
- Collaboration
- Technology literacy
- Critical thinking
- Analytical
- Commercial acumen
- Problem-solving
- Leadership

These skills are developed throughout the programme but in particular in the Professional Skills Module at Part 2 and in the professional skills assignment at Part 3 which is linked to the Part 3 Professional Advice module.

The skills will be specifically assessed through the Professional Skills module and related assignment at Part 2 and Part 3.

- Relevant tax legislation for each Part.
- Digital versions of past papers, with model solutions which have been updated and/or annotated to reflect subsequent Finance Acts with examiners' reports.

Chartered Tax Adviser (CTA) manuals are produced for use by the student in conjunction with the courses offered by the Irish Tax Institute. Various publications from our *Irish Tax Series*, other than the Chartered Tax Adviser (CTA) manuals, are provided to students attending courses. These publications should be used by students to complement the Chartered Tax Adviser (CTA) manuals and may also be used by students at their place of work.

## **Student Services**

A dedicated team of coordinators are available for all student queries.

#### **Learning Management System**

Our Learning Management System (Blackboard) allows students to track the progress of their studies, ensuring they are achieving key milestones during the programme. Blackboard contains all information relevant to the course, including timetables, online lectures, additional course materials and important announcements.

#### **Technology**

We deliver our courses using a range of cutting-edge technology solutions including our video management system (Panopto) and Articulate.

#### **Student Travelcards**

Chartered Tax Adviser (CTA) students who are registered on a course are eligible for Student Travel cards, Ireland's largest national student ID and discount card offering discounts with Irish Rail, Dublin Bus, DART, LUAS, Bus Éireann and other carriers as well as over 200 retailers.

#### **Feedback**

To facilitate our ongoing commitment to quality and excellence the Irish Tax Institute will periodically canvas for feedback via online surveys and focus groups. We welcome feedback as it is vital to ensure the ongoing development of our education programmes.

#### **Using Blackboard**

On first registering students will be issued with a student number and password to login to Blackboard. Students are expected to visit Blackboard and <a href="https://www.taxinstitute.ie">www.taxinstitute.ie</a> regularly to:

- View announcements and check timetables
- · Access lecture notes and other course materials
- · View e-learning lectures and tutorials online
- Complete self-assessment quizzes
- Download case studies and Assignments
- · Submit Assignments for correction

It is important to access the student area regularly, or students risk missing important information.

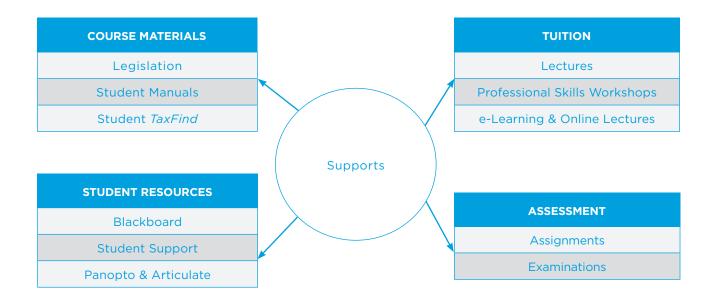

### Internet access is vital

Students are asked to ensure that their personal details are correct, including email address, as we may periodically send emails containing important information. If there is a change, students should update their profile online.

In case of emergencies, such as the last-minute timetable changes, the Irish Tax Institute may, where possible, send an SMS message to students.

#### A comprehensive range of supports

In keeping with the latest developments in best practice for adult education, the Chartered Tax Adviser (CTA) programme offers a blended learning experience. This flexible approach allows students to combine online face-to-face lectures and tutorials with online and e-lectures. Assessment comprises both formative and summative elements ranging from self-assessment quizzes to assignments, and end of course exams.

#### Key Features of the Chartered Tax Adviser (CTA) Qualification

- A fully integrated and comprehensive syllabus.
- Highlights the integration and interaction of taxes.
- Maps to the course materials to assist students in planning and tracking their studies.

#### **Flexibility**

- Autumn and summer courses offer even greater flexibility as students can choose when best suits them and their employer to study and sit examinations.
- Students with full Part 1 exemptions can qualify as an Chartered Tax Adviser (CTA) in one year (where they complete autumn and summer courses)
- Students can choose from two examination sittings per year (summer and autumn).

## **Equality, Diversity and Inclusion Statement**

The Irish Tax Institute ("ITI") is committed to promoting equality in all its education programmes. In addition, the ITI believes in respecting the diversity of its student body and in promoting inclusion.

#### **Equality**

We will treat all individuals fairly and equally regardless of their gender, family status, civil status, sexual orientation, age, disability, religion, ethnicity and/or their membership of the Traveller community.

The ITI seeks to ensure that students with a disability have as full and equal participation in its education programmes as can reasonably be provided. Students with a disability who require reasonable accommodation should disclose their additional needs at the earliest possible opportunity to the ITI. Further details on our reasonable accommodation policy are contained in our student regulations.

#### **Diversity and Inclusion**

The ITI believes in promoting diversity and inclusion and recognises that both our community of learners and society in general is comprised of people from diverse backgrounds. We welcome students from diverse backgrounds and strive to ensure that such individuals feel respected, cherished and included. We strive to ensure that they be encouraged to achieve their fullest potential.

We want all our students to feel included among our community of learners. We believe in fostering a culture of respect, fairness and inclusion in everything that we do.

## **Complaints Policy**

The Irish Tax Institute is committed to striving for excellence in everything we do. We are always trying to improve our education programmes and continually monitor the quality of the student experience.

We recognise that there may be occasions when our service falls below an acceptable standard which may cause students to raise concerns or to make a complaint. We take such concerns and complaints very seriously.

If a student has a concern during their studies with us, they should raise it with their Education Coordinator in the first instance. If a student has a concern which has not been resolved to their satisfaction or wishes to make a complaint, then they have the option of making a formal complaint to the Senior Tax Manager – Education Delivery.

When making a formal complaint, a student should outline their complaint in detail and provide any supporting documentation that may be required. They may also be required to provide additional information related to their complaint if requested to do so by the ITI. Complaints should be sent by email to students@ taxinstitute.ie no later than 20 working days of the issue which the complaint relates to.

The ITI will endeavour to review the complaint within 10 working days. Fair procedures will be followed in the investigation of all complaints.

Please note that this policy does not relate to rechecks or appeals. Rechecks and appeals fall under regulations 14 and 15 respectively of the student regulations, and the procedures contained therein should be followed as necessary.

## **Reasonable Accommodation Policy**

This document outlines the Institutes policy in respect of the provision of reasonable accommodations to students with permanent disabilities and temporary impairments.

The Institute is committed to ensuring, as far as practicable, that students with permanent disabilities and temporary impairments are enabled to demonstrate their knowledge in assessments and exams on an equal basis to their peers. The arrangements for reasonable accommodations should reflect the student's day-to-day working life. Any reasonable accommodations requested that the student is not familiar with may hinder them rather than assist them when sitting the exam.

Reasonable accommodation is defined as the actions that enable a student to demonstrate their knowledge and ability in exams, without changing the demands of those exams. It is intended to alleviate a disadvantage without the exam integrity being affected.

The granting of reasonable accommodations will ensure fairness to all students without putting the integrity of the exams or assessments at risk.

It is intended that reasonable accommodations will assist a student to become more independent in their learning.

In certain circumstances reasonable accommodations may be required during course delivery and this would be discussed directly with the education course coordinator. It should be noted that lectures, manuals, legislation and other required resources can be accessed online on our learning management system Blackboard.

#### WHO CAN APPLY FOR REASONABLE ACCOMMODATION?

Students may apply for reasonable accommodations on the basis of permanent disabilities and temporary impairments.

Students with permanent disabilities should apply for reasonable accommodations at the start of the academic year.

Where students are awarded reasonable accommodations on a basis of a permanent disability this will be granted for all assessments that the student may sit unless advised otherwise.

Students who have been granted reasonable accommodations due to a permanent disability, are required to contact the Assessment Manager at least six weeks before every exam sitting to confirm they will be sitting exams. Students will then be notified whether updated documentation will be required.

Students with temporary impairments should apply for reasonable accommodations as soon as possible but no later than 3 weeks before the scheduled exam date.

Where a student has been awarded reasonable accommodations for a temporary impairment this accommodation will be awarded for a single exam sitting. If the impairment is still impacting the student at the next exam sitting the student will need to apply for reasonable accommodations and provide updated supporting evidence including medical evidence where applicable for that sitting.

#### **HOW TO APPLY FOR REASONABLE ACCOMMODATION**

Students who wish to apply for reasonable accommodation must complete the application form for reasonable accommodation which is available on the assessment page on Blackboard. This form and supporting documentation including medical evidence should be submitted to the Assessment Manager.

#### Applications received without supporting documentation will not be considered

Students are advised to give as much information on their application form about their disability/impairment. Original copies of all documentation may be requested. This evidence must be relevant, complete and up to date from a medical or other suitably qualified professional. All medical evidence must be dated.

Where a student has undergone a needs assessment, a copy of the needs assessment showing the findings and recommendations should also be submitted with the application and if applicable any reports in support of specific learning difficulties. It is important that the needs assessment is dated.

It is the student's responsibility to provide all supporting documentation with their application form in order for that application to be considered. It is also the student's responsibility to inform the Institute of any changes to their disability/impairment which may then require additional or different accommodations to be put in place.

Once the completed application form has been received by the Assessment Manager, the application will be reviewed and the Assessment Manager may contact the student for additional information/clarification.

Applications are considered on a case by case basis and based on the documentation received.

#### **TIME PERIOD TO APPLY - PERMANENT DISABILITY**

Students applying for reasonable accommodation on the basis of a permanent disability should apply to the Assessment Manager when registering on the course. Although every effort will be made, applications submitted later than one month from registering on the course may not be granted.

#### **TIME PERIOD TO APPLY - TEMPORARY IMPAIRMENT**

An application for reasonable accommodation for a temporary impairment must be made to the Assessment Manager as soon as possible but no later than 3 weeks before the scheduled exam date.

#### **TIME PERIOD TO APPLY - MEDICAL EMERGENCIES**

In the event of an injury/medical emergency occurring within 3 weeks of the scheduled assessment students are advised to contact the Assessment Manager as soon as possible. We will endeavour to accommodate these exceptional cases.

#### TYPES OF REASONABLE ACCOMMODATION AVAILABLE

#### 1. Additional Time

Additional time may be approved in certain circumstances. Where a student has been approved for additional time this would consist of 10 minutes per hour for each exam.

#### 2. Reader

Use of an reader for assessments may be approved in certain circumstances.

The function of an reader in assessments is to read the questions only.

#### 3. Scribe

If a disability/impairment prevents a student from completing the exam in a typed format, students may apply for the use of a scribe. The awarding of a scribe as reasonable accommodation is usually only granted in extreme circumstances. The provision of a scribe should be considered very carefully by the student before applying as there are certain disadvantages to this form of reasonable accommodation. The Irish Tax Institute prefers to put in place arrangements that will allow a student to work independently rather than accommodations that may make a student dependent on another person to complete your exam.

In some circumstances a scribe may be permitted and may be the best approach. If you are requesting a scribe then we would expect that there might already be an arrangement in place in your workplace to help you overcome this barrier.

A scribe will type the students dictated answers to questions during the exam. At no stage will a scribe aid the student in the structure, punctuation, calculations or planning of answers.

#### 4. Sign Language Interpreters

A sign language interpreter may be approved in certain circumstances.

The role of the sign language interpreter is to translate all announcements and information given to the student. This may be done in advance of the exam where the interpreter is not in the room while the student completes the exam.

The interpreter may not offer suggestions, provide content or address queries the student may have during the exam.
