## Income Levy

Finance (No. 2) Act 2008 provided for the introduction of an income levy effective from 1 January 2009. Finance Act 2009 amended the provisions relating to the income levy by introducing a revised annual composite rate for 2009. Finance Act 2011 abolished the income levy with effect from 1 January 2011, by combining it with the health contribution into the Universal Social Charge.
The income levy was payable on gross income from all sources before any tax reliefs, capital allowances, losses or pension contributions, as follows:

(i) For payroll purposes the following income levy rates applied:

## Universal Social Charge

The Universal Social Charge (USC) which came into effect on 1 January 2011, is a tax payable on gross income, including notional pay, after any relief for certain trading losses and capital allowances, but before pension contributions. The USC effectively replaced the health contribution and income levy.
All individuals are liable to pay the USC if their gross income exceeds the threshold of $€ 13,000$ p.a. ( $€ 250$ per week) in 2022 and 2023.

## CHART 7 (continued)

Notes:
Mortgage interest relief is no longer available for the tax years 2021, et seq.
The position for prior years is as follows.
For individuals who purchased their first qualifying residence on or after 1 January 2004 and on or before 31 December 2008, the rate of tax relief on the interest paid on the loan to purchase that property was $30 \%$ for the tax years 2012 to 2020 . (The $30 \%$ rate may also have applied to a second or subsequent qualifying residence but only where the first qualifying residence was purchased on or after 1 January 2004).
Loans taken out before 1 January 2004 were no longer eligible for mortgage interest relief in 2020. However, top up loans/equity release loans taken out since 1 January 2004 on pre2004 loans may have been eligible for mortgage interest relief, provided they adhered to the relevant eligibility criteria.

Loans taken out on or after 1 January 2013 did not qualify for mortgage interest relief, except in the following circumstances:

Interest Relief was available for the tax years 2013 to 2020 in respect of interest paid on a loan taken out and used by an individual:

- on or after 1 January 2012 and on or before 31 December 2012 to purchase a site on which his or her home is constructed, or
- on or after 1 January 2012 and on or before 31 December 2013 to construct the said home on that site.

Interest Relief was available for the tax years 2013 to 2020 in respect of interest paid on a loan for which loan approval in writing was in place on or after 1 January 2012 and on or before 31 December 2012, and

- part of the loan was used in 2012 by that individual to repair, develop or improve his or her home, and
- the balance of the loan was used in 2013 by that individual to repair, develop or improve his or her home.

Relief was not granted in respect of interest paid on any of the above loans unless the required planning permission was granted on or before 31 December 2012 and such permission had not ceased to exist.

## CHART 11

## (a) Interest on Overdue Tax

In the case of income tax, corporation tax, capital gains tax, gift tax and inheritance tax remaining unpaid on or after 1 April 2005, the basis for the calculation of interest is by reference to a daily rate for all periods of delay, whether before or after 1 April 2005, instead of a monthly basis for periods up to 31 August 2002 and a daily basis thereafter. In the case of stamp duties, due to the variation in the rates which applied for various purposes in the past, the new rate will only apply for periods of delay arising on or after
1 April 2005. The duty rates applying in the case of income tax, corporation tax capital gains tax and capital acquisitions tax are as follows:

| Period |  | Percentage |
| :---: | :---: | :---: |
| From | To |  |
| 6 April 1963 | 31 July 1971 | $0.0164 \%$ |
| 1 August 1971 | 30 April 1975 | $0.0246 \%$ |
| 1 May 1975 | 31 July 1978 | $0.0492 \%$ |
| 1 August 1978 | 31 March 1998 | $0.0410 \%$ |
| 1 April 1998 | 31 March 2005 | $0.0322 \%$ |
| 1 April 2005 | 30 June 2009 | $0.0273 \%$ |
| 1 July 2009 | date of payment | $0.0219 \%$ |

The reduced rates from 1 April 2005 to 30 June 2009 and the measures outlined above do not apply to indirect taxes, such as excise duties and VAT, and taxes such as PAYE, relevant contracts tax, professional fees withholding tax, DIRT and other withholding and exit taxes which are collected by employers and others on a fiduciary basis. The rates applicable from 1 April 2005 are as follows:

| Period |  | Percentage |
| :---: | :---: | :---: |
| From | To |  |
| 1 April 2005 | 30 June 2009 | $0.0322 \%$ |
| 1 July 2009 | date of payment | $0.0274 \%$ |

Reduced rates of interest and interest-free periods may apply to certain tax liabilities 'warehoused' as a result of special Covid-19 debt warehouse provisions

## CHART 20

## Corporation Tax - Preliminary Tax

The payment date for preliminary corporation tax was brought forward from six months after the end of the accounting period to the 21st of the month before the end of the accounting period, over a transitional period of five years. During the transitional period the preliminary tax may be paid in two instalments, ensuring that the total of the two instalments is at least $90 \%$ of the final liability for the period in question.
A summary of the minimum first instalments that were payable is as follows:
\(\left.\begin{array}{lcc} \& Standard Company \& "Small" Company" <br>

Option\end{array}\right]\)| A/C Period Ending In | Minimum \% of Final <br> Liability | Minimum \% of Prior Period Liability |
| :---: | :---: | :---: |
| 2002 | $18 \%$ | $20 \%$ |
| 2003 | $36 \%$ | $40 \%$ |
| 2004 | $54 \%$ | $60 \%$ |
| 2005 | $72 \%$ | $80 \%$ |
| 2006 et seq. | $90 \%$ | $100 \%$ |

"A company is regarded as a "small" company if its corresponding corporation tax liability for the preceding chargeable period does not exceed:
(i) $€ 50,000$ in respect of preliminary tax payable on or before 6 December 2006.
(ii) €150,000 in respect of preliminary tax payable between 7 December 2006 and 5 December 2007.
(iii) $€ 200,000$ in respect of preliminary tax payable on or after 6 December 2007.

New companies that do not expect their corporation tax liability for the first year to exceed the following limits are not obliged to pay preliminary tax in that first year:
(i) $€ 150,000$ in respect of accounting periods in respect of which preliminary tax is payable between 7 December 2006 and 5 December 2007.
(ii) $€ 200,000$ in respect of accounting periods in respect of which preliminary tax is payable on or after 6 December 2007.

## Large Companies

In the case of "large companies" (i.e. companies with a tax liability of more than $\in 200,000$ in their previous accounting period), for accounting periods commencing on or after 14 October 2008, preliminary corporation tax is payable in two instalments as follows:
1st instalment - in the sixth month of the accounting period but not later than the 21st of the relevant month and the amount payable is the lower of:

- $50 \%$ of the corporation tax liability in the preceding accounting period or - $45 \%$ of the corporation tax liability in the current accounting period.

2nd instalment - in the eleventh month of the accounting period but not later than the 21st of the relevant month and the amount payable must bring the total preliminary tax paid up to $90 \%$ of the corporation tax liability for the current accounting period.
References to the $21^{s t}$ of the month should be construed as the $23^{r d}$ of the month where payment is made by electronic means required by Revenue.

The rules above relate to the payment of corporation tax including corporation tax on chargeable gains. If capital gains tax is due as in the case of development land the payment dates for capital gains tax apply.

Electronic pay and filers: for the 21st day of the month, substitute 23 rd day of the month
Revenue administrative practice allows for the filing of financial statements in iXBRL format within 3 months of the due date for filing the Form CT1.

## CHART 44

Tax Geared Penalties

| Penalty Table | Category of Default | Qualifying Disclosure Finance Act 2021 |  |
| :---: | :---: | :---: | :---: |
| All defaults where there is a qualifying disclosure | Penalty table for defaults that occurred on or after 24/12/2008 | Prompted qualifying disclosure and co-operation | Unprompted qualifying disclosure and co-operation |
| All qualifying disclosures in this category | Careless behaviour without significant consequences | 10\% | 3\% |
| First qualifying disclosure in these categories | Careless behaviour with significant consequences | 20\% | 5\% |
|  | Deliberate behaviour | 50\% | 10\% |
| Second qualifying disclosure in these categories | Careless behaviour with significant consequences | 30\% | 20\% |
|  | Deliberate behaviour | 75\% | 55\% |
| Third or subsequent qualifying disclosure in these categories | Careless behaviour with significant consequences | 40\% | 40\% |
|  | Deliberate behaviour | 100\% | 100\% |
| No Qualifying Disclosure | Category of Default | No Co-operation | Co-operation Only |
| All defaults where there is no qualifying disclosure | Careless behaviour without significant consequences | 20\% | 15\% |
|  | Careless behaviour with significant consequences | 40\% | 30\% |
|  | Deliberate behaviour | 100\% | 75\% |

## Notes:

1. "Significant consequences" means that the difference between the tax or duty underpaid is greater than $15 \%$ of the correct tax or duty payable or refundable for the relevant period.
2. Where a second qualifying disclosure is made within a 5-year period, and where the nature of the default is either the "deliberate behaviour" or "careless behaviour with significant consequences" category, the legislation provides that the level of mitigation will be reduced.
3. Up to the passing of Finance Act 2015 the tax geared penalties were computed as a percentage of the tax which had been saved because of an incorrect return. Finance Act 2015 applied a similar computation where an excessive claim has been made by a taxpayer in an incorrect return. With effect from 21 December 2015 the amount to which the tax geared penalty is applied is calculated as the difference between:
(a) the amount of tax payable or that could have been claimed on the basis of the incorrect return, statement, declaration, claim or account; and
(b) the amount so payable or refundable if the submission had been correct.

## Penalties for "No Loss of Revenue" Tax Default

| No Loss of Revenue Tax <br> Default | Category of <br> Default | No Loss of Revenue Qualifying <br> Disclosure |  |
| :--- | :--- | :---: | :---: |
| All "careless behaviour" no loss of revenue <br> tax defaults where there is a "qualifying <br> disclosure" | Prompted <br> qualifying <br> disclosure and <br> full co-operation | Unprompted <br> qualifying <br> disclosure and <br> full co-operation |  |
| First qualifying disclosure in <br> this category | Careless <br> behaviour | Lesser of 6\% or <br> $€ 15,000$ | Lesser of 3\% or <br> $€ 5,000$ |
| Second qualifying disclosure <br> in this category | Careless <br> behaviour | Lesser of $6 \%$ or <br> $€ 30,000$ | Lesser of 3\% or <br> $€ 20,000$ |
| Third or subsequent <br> qualifying disclosure in these <br> categories | Careless <br> behaviour | Lesser of $6 \%$ or <br> $€ 60,000$ | Lesser of 3\% or <br> $€ 40,000$ |
| No Loss of Revenue Tax <br> Default | Category of <br> Default | Co-operation only |  |$|$

Notes:

1. Claims for "no loss of revenue" will not be considered where there is general failure to operate the tax system or where there is no co-operation by the taxpayer.
2. The tax will not be collected where it is proven by the taxpayer, to the satisfaction of Revenue, that there is no loss of revenue to the Exchequer.
3. Interest may be charged, but only for the period of any temporary loss of revenue.
4. Liability to a penalty arises in all cases except where the "innocent error" or "technical adjustment" criteria are met. The maximum penalty is $€ 100,000$.
5. All "no loss of revenue" claims should be submitted to Revenue in writing and include (in one submission) all supporting documentation to validate the "no loss of revenue" claim.
6. A new Code of Practice for Revenue Compliance Interventions came into force on 1 May 2022, applicable for all interventions notified on or after that date. This significantly impacts the extent to which disclosures may be regarded as 'prompted' or 'unprompted' and thus potential levels of penalties.
