If a student has a concern during their studies with us, they should raise it with their Education Coordinator in the first instance. If a student has a concern which has not been resolved to their satisfaction or wishes to make a complaint, then they have the option of making a formal complaint to the Senior Tax Manager – Education Delivery.

When making a formal complaint, a student should outline their complaint in detail and provide any supporting documentation that may be required. They may also be required to provide additional information related to their complaint if requested to do so by the ITI. Complaints should be sent by email to: sobrien@taxinstitute.ie no later than 20 working days of the issue which the complaint relates to.

The ITI will endeavour to review the complaint within 10 working days. Fair procedures will be followed in the investigation of all complaints.

Please note that this policy does not relate to rechecks or appeals. Rechecks and appeals fall under regulations 8 and 9 respectively of the student regulations, and the procedures contained therein should be followed as necessary.

Reasonable Accommodation Policy

This document outlines the Institutes policy in respect of the provision of reasonable accommodations to students with permanent disabilities and temporary impairments.

The Institute is committed to ensuring, as far as practicable, that students with permanent disabilities and temporary impairments are enabled to demonstrate their knowledge in assessments and exams on an equal basis to their peers. The arrangements for reasonable accommodations should reflect the student's day-to-day working life. Any reasonable accommodations requested that the student is not familiar with may hinder them rather than assist them when sitting the exam.

Reasonable accommodation is defined as the actions that enable a student to demonstrate their knowledge and ability in exams, without changing the demands of those exams. It is intended to alleviate a disadvantage without the exam integrity being affected.

The granting of reasonable accommodations will ensure fairness to all students without putting the integrity of the exams or assessments at risk.

It is intended that reasonable accommodations will assist a student to become more independent in their learning.

In certain circumstances reasonable accommodations may be required during course delivery and this would be discussed directly with the education course coordinator. It should be noted that lectures, manuals, legislation and other required resources can be accessed online on our learning management system Blackboard.

Who can apply for reasonable accommodation?

Students may apply for reasonable accommodations on the basis of permanent disabilities and temporary impairments.

Students with permanent disabilities should apply for reasonable accommodations at the start of the academic year.

Where students are awarded reasonable accommodations on a basis of a permanent disability this will be granted for all assessments that the student may sit unless advised otherwise.

Students who have been granted reasonable accommodations due to a permanent disability, **are required to contact the Assessment Manager at least six weeks before every exam sitting to confirm they will be sitting exams.** Students will then be notified whether updated documentation will be required.

Students with temporary impairments should apply for reasonable accommodations as soon as possible but no later than 3 weeks before the scheduled exam date.

Where a student has been awarded reasonable accommodations for a temporary impairment this accommodation will be awarded for a single exam sitting. If the impairment is still impacting the student at the next exam sitting the student will need to apply for reasonable accommodations and provide updated supporting evidence including medical evidence where applicable for that sitting.

How to apply for Reasonable Accommodation

Students who wish to apply for reasonable accommodation must complete the application form for reasonable accommodation which is available on the assessment page on Blackboard. This form and supporting documentation including medical evidence should be submitted to the Assessment Manager. **Applications received without supporting documentation will not be considered.**

Students are advised to give as much information on their application form about their disability/impairment. Original copies of all documentation may be requested. This evidence must be relevant,

complete and up to date from a medical or other suitably qualified professional. All medical evidence must be dated.

Where a student has undergone a needs assessment, a copy of the needs assessment showing the findings and recommendations should also be submitted with the application and if applicable any reports in support of specific learning difficulties. It is important that the needs assessment is dated.

It is the student's responsibility to provide all supporting documentation with their application form in order for that application to be considered. It is also the student's responsibility to inform the Institute of any changes to their disability/impairment which may then require additional or different accommodations to be put in place.

Once the completed application form has been received by the Assessment Manager, the application will be reviewed and the Assessment Manager may contact the student for additional information/clarification.

Applications are considered on a case by case basis and based on the documentation received.

Time period to apply - Permanent Disability

Students applying for reasonable accommodation on the basis of a permanent disability should apply to the Assessment Manager when registering on the course. Although every effort will be made, applications submitted later than one month from registering on the course may not be granted.

Time period to apply - Temporary Impairment

An application for reasonable accommodation for a temporary impairment must be made to the Assessment Manager as soon as possible but no later than 3 weeks before the scheduled exam date.

Time period to apply - Medical Emergencies

In the event of an injury/medical emergency occurring within 3 weeks of the scheduled assessment students are advised to contact the Assessment Manager as soon as possible. We will endeavour to accommodate these exceptional cases.

Types of Reasonable Accommodation available

1. Additional Time

Additional time may be approved in certain circumstances. Where a student has been approved for additional time this would consist of 10 minutes per hour for each exam.

2. Reader

Use of a reader for assessments may be approved in certain circumstances.

The function of a reader in assessments is to read the questions only.

3. Scribe

If a disability/impairment prevents a student from completing the exam in a typed format, students may apply for the use of a scribe. The awarding of a scribe as reasonable accommodation is usually only granted in extreme circumstances. The provision of a scribe should be considered very carefully by the student before applying as there are certain disadvantages to this form of reasonable accommodation. The Irish Tax Institute prefers to put in place arrangements that will allow a student to work independently rather than accommodations that may make a student dependent on another person to complete your exam.

In some circumstances a scribe may be permitted and may be the best approach. If you are requesting a scribe then we would expect that there might already be an arrangement in place in your workplace to help you overcome this barrier.

A scribe will type the students dictated answers to questions during the exam. At no stage will a scribe aid the student in the structure, punctuation, calculations or planning of answers.

4. Sign Language Interpreters

A sign language interpreter may be approved in certain circumstances.

The role of the sign language interpreter is to translate all announcements and information given to the student. This may be done in advance of the exam where the interpreter is not in the room while the student completes the exam.

The interpreter may not offer suggestions, provide content or address queries the student may have during the exam.
